

Hadamard: $a = b = 1/\sqrt{2}$, $\alpha = 0$

Moneda genérica: $|a| = 0.6$, $b = 0.8 e^{i\pi/3}$, $\alpha = 0.3$

$\bigcirc$ numérico (diag. de U)
 $\bullet$ banda: $\cos \omega_m = |a| \cos(\pi m/n)$
 $\blacklozenge$ aislados: $e^{i\alpha}(\pm \sqrt{1 - (\text{Im } b)^2} + i \text{Im } b)$
